PART 8. SUBMISSION CHECKLIST DETAILS			
This checklist provides the basic requirements to complete a Building Permit application. Depending on the nature and complexity of the application, additional requirements may be requested following internal review.			
Documentation	Details	Required	Recieved
<b>A.</b> Completed Application Form	All forms must be submitted in person or electronically to <a href="mailto:devserv@castlegar.ca">devserv@castlegar.ca</a> . Incomplete applications will delay review of your application.	<input type="checkbox"/>	<input type="checkbox"/>
<b>B.</b> Application Fee	Application fees are set out as Schedule A of the City's Building Bylaw 1338. Applicable fees should be submitted at the time of application.	<input type="checkbox"/>	<input type="checkbox"/>

# Building, Plumbing and Demolition Permit Application

Documentation	Details	Required	Recieved
C. State of Title Certificate and Charges on Title	Must be printed within the last 30 days of application date. Titles and related documents can be obtained from myLTSA.com or through a lawyer, notary, or search company. Titles may also be provided by the City for a fee. All development is subject to comply with any right of ways, easements, covenants or other charges on Title.	<input type="checkbox"/>	<input type="checkbox"/>
D. Agent Authorization Form	Written consent of all property owners, with one or more owners appointing an applicant to act as an agent for all purposes of the application. <b>(if applicable)</b>	<input type="checkbox"/>	<input type="checkbox"/>
E. Municipal Works	Photos and a signed form providing a record of existing damage to any municipal works on-site.	<input type="checkbox"/>	<input type="checkbox"/>
F. Building Drawings	All drawings should be to scale and show all construction related details. Drawings should be sealed and signed. Digital seals and signs are acceptable. Foundation plans, elevations, floor plans and cross sections should all indicate: north arrow, correct scale and scale bar; outside and inside room dimensions; purpose of all rooms (highlighting areas under renovation); footings, foundation walls, slab, crawlspace construction details if new or changed; proposed wall structures, location of plumbing, smoke alarms and carbon monoxide detectors; building heights, floor heights and stairs; radon rough-ins; details of heating systems; RSI detail for all wall/floor/ceiling assemblies; fire separation for all secondary suites, two family and multi-family dwellings, conformance to emergency code. <b>(2 copies full size printed and one electronic set)</b>	<input type="checkbox"/>	<input type="checkbox"/>
G. Site Plans	Site Plans must be based on the registered legal Lot Plan (LTSA) and must contain: north arrow, correct scale and scale bar; property lines; name and extent of adjacent laneways or roadways; existing right of ways or easements; location, area, and dimensions including setbacks of existing and proposed structures; location and grade of accesses; location of any steep slopes, watercourses or other natural features on or adjacent to the property; location of existing wells or water sources, location of existing or proposed septic fields, location of ay existing utilities. <b>(2 copies full size printed and one electronic set)</b>	<input type="checkbox"/>	<input type="checkbox"/>
H. Structural Drawings and Layouts	All design drawings must clearly identify structural components, dimensions and load paths to and including the foundation and all footings. Structural design that exceeds BCBC minimums, have complex design or structures over 499 meters in elevation require the services of a qualified structural engineer. Structures over 500 meters in elevation must be designed to Part 4 of the BCBC. <b>(engineer must submit Schedule C-B Letters of Assurance prior to occupancy where applicable)</b>	<input type="checkbox"/>	<input type="checkbox"/>
I. Parking Plan	Parking Plans should show all off-street parking spaces on-site, drawn to scale with dimensions; including location and width of existing or proposed accesses, driveways and maneuvering aisles. Garage spaces are permitted as off-street parking.	<input type="checkbox"/>	<input type="checkbox"/>
J. Site Drainage and Servicing Plans	Site drainage and servicing plans must contain the following details: lot dimensions with actual proposed building footprint and roof slopes shown; location of existing utilities and drainage courses; driveway surface materials, dimensions and grading arrows; elevation at garage floor; existing and proposed ground elevations at all property corners, building corners, culvert intakes, edge of asphalt or curb, ditch or road center lines; existing and proposed sanitary services; proposed sanitary invert elevation at building; existing and proposed water services including shut off location; grading arrows showing direction and % grade; location of proposed soak away pit(s).	<input type="checkbox"/>	<input type="checkbox"/>

# Building, Plumbing and Demolition Permit Application

Documentation	Details	Required	Recieved
