

CASTLEGAR

SPOTLIGHT

Did you Know

The City of Castlegar's Fire Department has received its new 100 Foot platform/pumper truck

As required by the Fire Underwriters Survey (FUS), the new fire truck replaces the 30 year old Fire Engine # 3

- By replacing the outdated fire truck, insurance rates remain the same.
- The new truck supports increased development by allowing taller buildings to be constructed within the community.
- The City's outdated 1987 Fire Engine will be donated to Firefighters Without Borders Canada for placement to a 3rd world developing community.
