

Street Sweeping Update

Spring has finally come and with it the flowers need planting, the lawn needs mowing and of course winter sand needs to be cleaned up. City crews have been busy street sweeping and sidewalk washing with priority routes getting attention first.

The late winter this year and snow in March has meant street sweeping has been delayed compared to past years, but this does not mean we have forgotten about your street. The street sweeper is now working in residential neighbourhoods and we expect to get all sweeping done within the next month.

For the week of May 6th we will be working in the following areas:

- Crestview Crescent
- 14th Street
- Southridge area

We thank you for your patience.

City of Castlegar
