

The City Needs Your Help!

Working around City of Castlegar garbage carts and recycle bins during snow removal season is a HUGE time impact. It's vital that carts & bins are out of our way so we can remove snow from City streets and sidewalks as quickly as possible. It may only take a minute to move the carts/ bins, but a minute over hundreds of driveways can add up to hours in snow clearing delays.

For more information, please see our Snow Removal Policy at http://www.castlegar.ca/services_civicworks_snow.php

HERE'S HOW YOU CAN HELP!

- Place your garbage and recycling bins on a cleared area - do not perch them on the top of snow piles.
- Make sure you return your garbage and recycling containers to your yard as soon as possible after collection to allow snow removal equipment to pass by.
- Please have patience as our Public Works Department works to get to your area as quickly as possible.

Please call Waste Management at
1-800-774-9748
for any garbage/recycling collection issues
